

Jade and Tourmaline Photon MAT User Manual

1. Check the power supply cable.

2. Connect to a power supply. Press the black on button on the control box.
3. The plastic on the top right of the mat is simply just a trademark label.

4. Make sure that the remote control lights up.
5. Press the phonton button, the red Phonton will light up.

6. To verify that the Phonton is working, make sure that the iron core is shaking in a small round container. If it is shaking it is working perfectly.
